Special Tools & Their Use In Repair

By Jim Purzycki

What is a Test?

• A Diagnostic Analysis at one point in space and Time

• 1.0 Check Valve
• 2.0 Relief Valve

What is a Repair?

• The Process to Return a Backflow Prevention Assembly to its Original Factory Specifications

NOTHING IS AS SIMPLE AS IT SEEMS.
Nothing is simple; nothing is as it seems.
Issues With Tools

• 1. Buy?  Fabricate?  After Market?

• 2. Types:
  Compression
  Torque
You can’t tell how deep a puddle is until you step in it.
