

Onsite – Customized Training

Customized Programs

The University of Florida Center for Training, Research and Education for Environmental Occupations (UF/TREEO) partners with your organization to customize training programs designed to meet your needs. We take the time to understand your environmental challenges and health and safety objectives. UF/TREEO can:

- Bring a current UF/TREEO open-enrollment course to your location
- Customize one of our courses to address your current training objectives
- Develop a new, unique course that meets your specific needs

Benefits of Customized Training

- Programs designed to meet specific needs and objectives
- Industry and regulatory examples, value-added material and hands-on training to maximize the educational experience
- Practical applications for the workplace
- Qualified instructors who bring real-world experience, the latest tools and proven technologies to the program
- Programs taught at your facility or a location of your choice
- Flexibility in scheduling
- The University of Florida's long-standing commitment to high-quality learning experiences

Instructors

UF/TREEO's awarding-winning training specialists use the latest instructional technology methods to develop quality training programs. Customized training programs are facilitated by UF/TREEO's expert staff or by professional consultants with extensive knowledge and industry experience. UF/TREEO has five instructional specialists on staff, including three Certified Environmental Trainers (CET). In 2002, the UF/TREEO Training Specialist Team was awarded the National Environmental Training Association Trainer-of-the-Year Award.

UF/TREEO

Since 1977, UF/TREEO has trained thousands of professionals from around the world in its award-winning environmental training program. The center offers more than 300 non-credit, professional development courses each year in the environmental and health and safety fields.
