\$475

CEUs: 1.6; FBPE PDHs 0004040: 16.0

Time: 8:30 am - 5:00 pm both days

This two-day course provides the student the necessary background in green building fundamentals and the LEED V3 rating systems for students to be able to take and pass the Green Associates exam given by the Green Building Certification Institute.

Course topics include:

- Green building strategies
- Integrated project design and delivery
- LEED in the marketplace / rationale for LEED
- LEED 2009 registration and certification processes
- LEED core categories and strategies
- LEED Regional Priority Credit strategies
- LEED Green Associate exam application and preparation

LEED-AP BD&C Overview & Exam Preparation

Aug. 27-28, 2009 Orlando
Oct. 1-2, 2009 Miami
Nov. 5-6, 2009 Jacksonville
Dec. 17-18, 2009 Gainesville

\$475

CEUs: 1.6; FBPE PDHs 0004040: 16.0

Time: 8:30 am - 5:00 pm both days

This course is designed for students who have taken and passed the Green Associate exam and have met the minimum experience requirements for becoming a LEED-AP for Building Design & Construction (BD&C). The course will be comprised of a detailed process and technical overview of the LEED products covered by the LEED-AP BD&C credential: LEED-NC 2009, LEED-CS 2009, and LEED for Schools (LEED-S) 2009. A course manual, quizzes and mock examination will be provided to the students to assist them in understanding the key concepts required by professionals for managing the LEED requirements for projects covered by the LEED-AP BD&C credential. A supplementary website for this course will also be made available to assist the student in preparing for the LEED-AP BD&C examination.
