

**Environmental Policy**  
**UF TREEO Center**

The University of Florida Center for Training, Research and Education for Environmental Occupations (UF TREEO) has long been a model for environmental training and stewardship. UF TREEO is dedicated to helping protect the environment for future generations by incorporating sustainable practices in all aspects of its operations. The mission of UF TREEO is, *'Excellence in Environmental Education.'* The foundation for the mission and commitment to sustainable practices is the UF TREEO Environmental Policy:

UF TREEO will adhere to the principles of the Environmental Policy in all aspects of its business and operations:

- Comply with all legal and other requirements that are applicable to the Center's operations
- Establish a goal of continual environmental improvement
- Implement pollution prevention, conservation and sustainable measures in the conduct of the Center's business affairs and operations
