Karen Prine Celebrates 30 Years at UF Division of Continuing Education

GAINESVILLE, Fla. – Karen Prine recently celebrated her 30th anniversary with the University of Florida Division of Continuing Education.

Prine has spent the past five years with the division's Center for Training, Research and Education for Environmental Occupations (UF/TREEO) as a coordinator of asbestos and lead abatement courses. Her first 25 years with the division were spent in the department of independent study and distance education where her duties included marketing, administration, personnel management, and policy and curriculum development.

“Karen’s professionalism and attention to detail have made her an invaluable member of the UF/TREEO team and the entire Division of Continuing Education,” said William T Engel Jr., Ph.D., CET. “She is committed to making sure our students receive the highest quality educational experience.”

Prine is on the board of directors for the Florida Environmental Information Association, a member of the Environmental Information Association, National Lead Abatement Assessment and Abatement Council, and the Society of Government Meeting Planners.

She holds a bachelor’s degree in professional management and a master of business administration from Nova University, Ft. Lauderdale, FL.
